## **PRESS RELEASE**

### **New Jersey Mining Company Forms Joint Venture with Newmont**

Kellogg, Idaho. New Jersey Mining Company (NJMC: OTCBB) is pleased to announce that it has signed a definitive agreement with Newmont North American Exploration Limited, a subsidiary of Newmont Mining Corporation (NYSE: NEM) under which the parties created a joint venture to explore for gold deposits within a 38 square mile area north of Murray, Idaho. The joint venture, known as the Toboggan Project, covers all of NJMC's mining claims within this area except the Niagara property. Under the terms of the agreement, Newmont can earn a 51% interest in the joint venture by spending \$2,000,000 over three years. Newmont can increase its interest to 70% by spending an additional \$10,000,000 or completing a feasibility study in the years four through seven, whichever comes first.

As part of the terms of the agreement, Newmont retains an option to include the Niagara property into the Toboggan Project which is exercisable starting at the end of year one and extending to the end of year three. If Newmont elects to include the Niagara property, it would be required to spend at least another \$1,000,000 or twice what NJMC spends on exploration of the Niagara, whichever is greater, to earn its 51% interest.

Fred Brackebusch, CEO, commented: "We think the joint venture with Newmont will accelerate the exploration of a potentially large gold system in structural zones related to alkaline intrusive rocks buried at depth in the Murray area. We look forward to the ensuing exploration program to be conducted by Newmont and to a potential mining project in the future."

New Jersey has other properties in the Murray area which are not part of the Toboggan Project including the Golden Chest project where a ramp is being driven to access deeper gold ore reserves, and the Copper Camp property, a copper-silver exploration prospect.

New Jersey Mining Company is involved in exploring for and developing gold, silver and base metal resources in the Coeur d'Alene Mining District of northern Idaho. The Company has a portfolio of mineral properties in the Coeur d'Alene Mining District including the Toboggan Project, the Niagara copper-silver deposit, the Golden Chest project, the New Jersey mine, and the Silver Strand mine.

This release contains certain forward-looking statements within the meaning of the Federal Securities Laws. Such statements are based on assumptions that the Company believes are reasonable but which are subject to a wide range of uncertainties and business risks. Factors that could cause actual results to differ from those anticipated are discussed in the Company's periodic filings with the Securities and Exchange Commission, including its annual report on Form 10-KSB for the year ended December 31, 2007.
